Professional Summary

Frontend Developer and UX/UI Designer with over 5 years of experience, specializing in building web applications with **React** and extensive knowledge of **Next.js, HTML, CSS, JavaScript, and UI libraries.** Experienced in product development from prototyping to deployment, with essential backend knowledge. Currently exploring the development of applications with **artificial intelligence and machine learning.**

Experience

Freelance   Córdoba, Argentina
Frontend Developer, UX/UI Designer & Brand Consultant   January 2019 – Present

- Development of websites and web applications using **Next.js/React, TypeScript, CSS Modules, and Tailwind,** focusing on performance and scalability.
- UX/UI design of visually appealing and user-friendly websites and web applications using modern technologies like **Figma, Adobe XD, and Illustrator.**
- Brand strategy and design with a pragmatic approach based on problem identification and market analysis.

Aerolab   Buenos Aires / New York
Freelance Frontend Developer   November 2024 – March 2025

- Implemented UI improvements on Aerolab's website using **Next.js/React, TypeScript, and Styled Components.**
- Developed and implemented advanced components using **JavaScript and React Hooks.**
- Created dynamic component animations using **UI libraries and JavaScript.**

Trichter Consulting   Playa del Carmen, México
Creative Director & Frontend Developer   October 2022 – April 2023

- Led the creative direction and web development of sales funnels for real estate agents using **Illustrator and WordPress.**
- Designed and implemented sales flows through email marketing and optimized onboarding for new clients.
- Developed agile methodologies to improve service delivery using **Asana and Slack,** including mentoring the team for effective implementation.

GNI Desarrollista   Córdoba, Argentina
Civil Engineer   February 2018 – April 2019

Before transitioning to web development, I led construction teams in the iconic *Cardinales Nuevo Suquía* building in Córdoba. My responsibilities included planning and assigning tasks according to schedules, supervising and directing construction work, coordinating supplies, and ensuring quality control.

Balneario Carlos Xamena   Salta, Argentina
Lifeguard   December 2016 – February 2017

While waiting to obtain my engineering degree, I took on a highly responsible role as a lifeguard at one of the largest public swimming pools in Northwestern Argentina. Working in a team, I participated in monitoring and rescuing individuals in emergencies, as well as ensuring safety standards were met.

Education

National University of Salta   Salta, Argentina
Civil Engineering   2009 – 2016

High School Education   Jardín América, Misiones, Argentina
Escuela de Educación Técnica EPET N° 14   2002 – 2008

Personal Projects

- [whatMLmodel:](#) An open-source application that recommends machine learning models using artificial intelligence. Full-stack design and development with **Figma, Next.js/React, Tailwind, and Gemini.**

- [Petpath:](#) A web application for discovering cat breeds. Full-stack design and development with **Adobe XD, Next.js/React, Python/Django, Sass, Firebase, Ant Design, SwiperJS, and Framer Motion.** Uses TheCatAPI's **RESTful API** to retrieve cat breed information.

- [Gradient Border:](#) A web application for creating CSS and Tailwind gradient borders. Frontend design and development **using Next.js/React, Sass, Tailwind, Ant Design, and CodeMirror.**

- [Filadd Review:](#) Redesign and development of Filadd's website, a student support platform. Technologies: **Next.js/React, Sass, Ant Design.**

- Founder of Marca Optimizada**, a design studio and YouTube channel** specializing in brand creation.
